TASK ONE: RESPONSIVE COMPANY MEMBER TEAM PAGE

Task Description:

Develop a responsive web page for the Company Member Team Page based on the provided design reference using HTML and CSS.

Steps Taken:

1. Created the basic HTML structure with header, team members section, and footer.

2. Implemented CSS styles for a responsive layout and design elements.

3. Utilized Flexbox for team member card positioning.

4. Incorporated a viewport meta tag in the HTML head for responsiveness.

5. Customized styles and layout based on the design reference, adding creative touches.

Challenges Faced:

1. Ensuring cross-browser compatibility.

2. Achieving a balance between aesthetics and responsiveness.

Solutions Implemented:

1. Tested the page on multiple browsers and made necessary adjustments.

2. Prioritized responsiveness and used media queries to adapt styles for different screen sizes.

Learnings:

1. Improved understanding of responsive web design principles.

2. Enhanced skills in using Flexbox for layout.

Project Update:

Successfully completed the development of the responsive Company Member Team Page. The page is visually appealing, adheres to the design reference, and functions well across various devices.
